
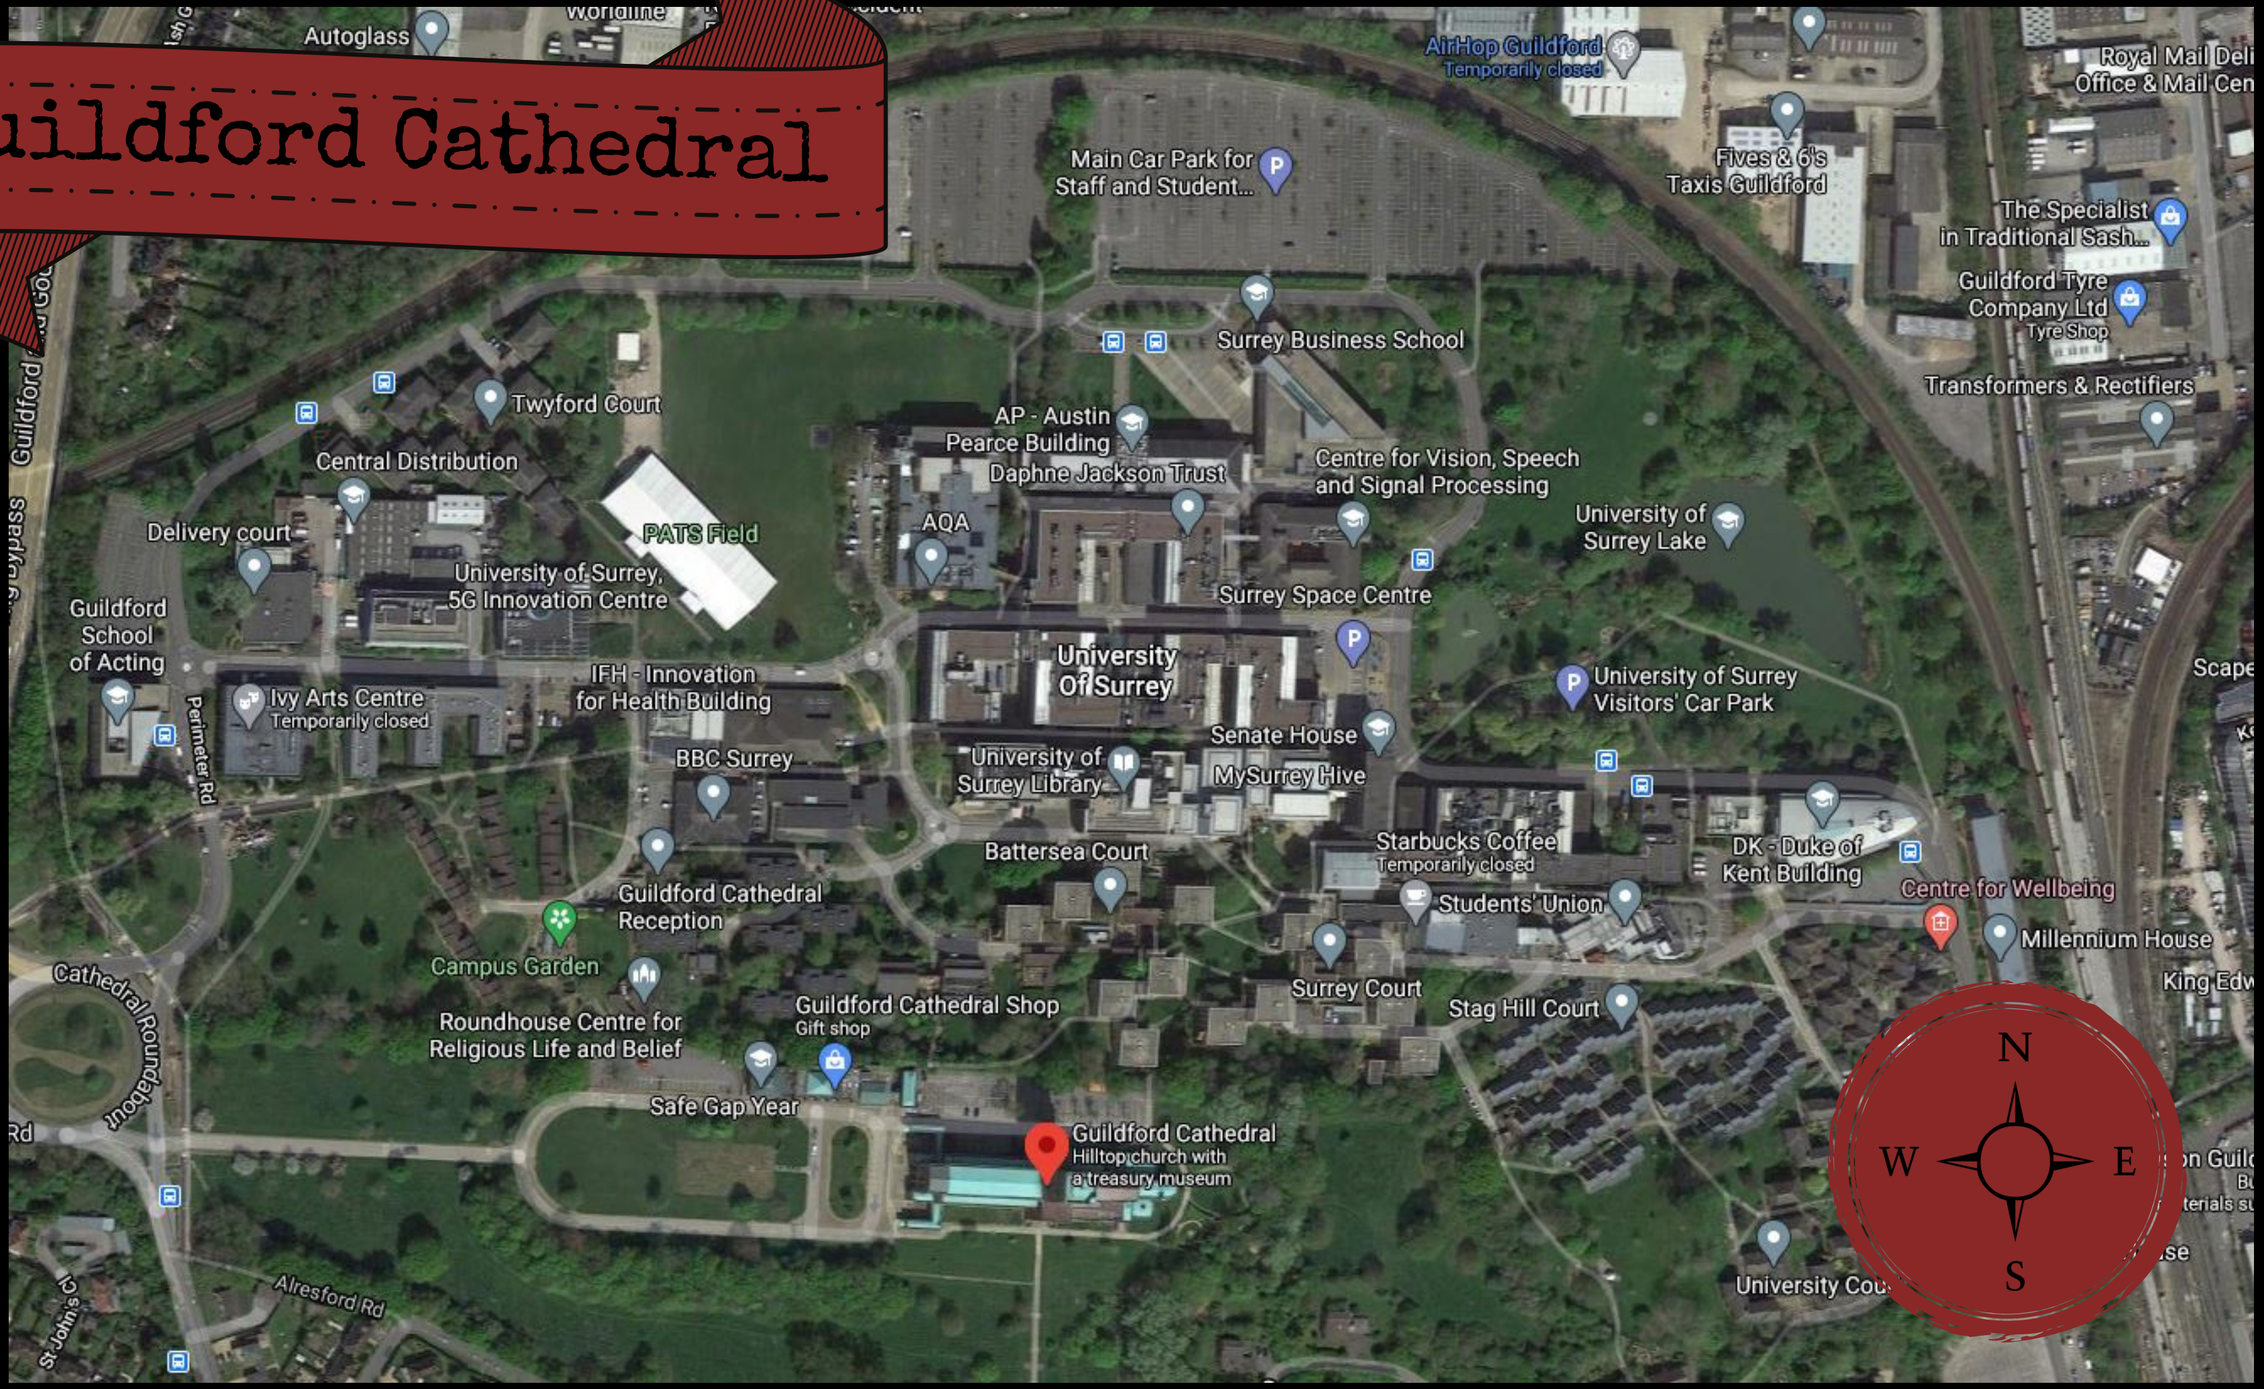
Find the Location

All spies must be able to find their bearings within seconds. Life, capture and the success of their mission may depend on it. For this assignment you will find a top secret map of a notable location and a selection of photographs showing various places. Your mission is to mark where each photo was taken on the map - and when completed send your picture back to the Spy Academy headquarters.

You will see a compass on the map and a clue with directions, use them wisely...

Guildford Cathedral



Location 1

South West

Location 2

North

Location 3

North West

Location 4

South West

Location 5

South East
